Dear Mrs. Gear the presentation about Harriet Tubman helped me to know that every one should have the right to be free. It made me feel that no one should be a slave. It made me think to everyone should have the right to do the same thing. But you were good telling the story.

Dear Joyce,

What a wonderful picture of you in the Star-News and interview with TV3. I have such a good feeling about how everything came together to make this Jonkunu true, authentic and respectful. It could not have happened without you. Your generosity of spirit, your thoughtful sincerity and your steadfast belief in the ultimate good of the project - all of these were invaluable. I can not thank you enough.

Sadie dropped this article by and I thought you would be interested in it. It confirms, on a scholarly level, the spiritual connection between Jonkunu and Afrikan traditions and their passing between generations. It also says that the most significant part of Jonkunu happened away from white society, in the quarters. I would love to get funding next year to bring this scholar to Wilmington to speak.

I hope you have had a wonderful beginning to the New Year!

Again, thank you,

Madeira

Dear story teller

My favorite story that you told was the one about the frog and the snake. My favorite character was both the snake and frog because they were very kind to each other and I like kind people. You told a lot of really great stories with a lot of cool characters in them but those were my favorites. I thought you were very good. I loved the stories that you told. Great job.

Love, Ivy Hardison. ☆
